

Programme

8:30 – 9:00	Registration and Coffee
9:00 – 9:10	Welcome Prof Richard Gilbertson, University of Cambridge
9:10 – 9:15	Meeting opening Dr Bristi Basu, Cambridge University Hospitals
9:15 – 9:25	Patient Representatives' Perspective Pre-recorded video
	Session 1: Early Detection of Pancreatic Cancer Chair: Dr Ljiljana Fruk, University of Cambridge
09:25 – 09:50	Dr Pilar Acedo, University College London <i>Addressing a key challenge of pancreatic cancer: early detection</i>
09:52 – 10:17	Prof Fiona Walter, Queen Mary University London <i>Early detection of pancreatic cancer – a primary care perspective</i>
10:20 – 10:30	Panel Discussion Including Prof Stephen Pereira, University College London
10:30 – 11:00	Coffee Break
	Session 2: The Tumour Microenvironment Chair: Dr Giulia Biffi, University of Cambridge
11:00 – 11:25	Dr Vincenzo Corbo, University of Verona <i>Differential activation of MAPK pathway in the stroma of pancreatic cancer subtypes</i>
11:27 – 11:52	Dr Ruth Scherz-Shouval, Weizmann Institute, Israel <i>Stress and mutation dependencies shaping the tumour microenvironment</i>
11:54 – 12:19	Prof Michael Schmid, University of Liverpool <i>Tumour-stroma-immune interactions in pancreatic cancer metastasis</i>
12:20 – 12:35	Panel Discussion Including Prof Jen Morton, University of Glasgow

Cambridge Pancreatic Cancer Symposium

CRUK Cambridge Institute

Friday 6th May 2022

12:35 – 13:35	Lunch
13:35 – 14:40	Session 3: Keynote (Sponsored by Viatriis) Chair: Prof Duncan Jodrell, University of Cambridge Keynote speaker: Dr Robert H. Vonderheide, Abramson Cancer Center, University of Pennsylvania <i>Case for priming, not checkpoint, in cancer immunotherapy of pancreas cancer</i>
14:40 – 15:00	Poster Flash talks
15:00 – 16:00	Coffee Break and Poster Session
16:00 – 16:25	Session 4: New Therapeutic Targets and Treatment Chair: Dr Bristi Basu Prof Axel Behrens, Institute of Cancer Research, London <i>Molecular mechanisms controlling cellular heterogeneity of pancreatic cancer</i>
16:27 – 16:52	Dr Rushika Perera, University of California, San Francisco, US <i>Unravelling metabolic adaptations to RAS-MAPK pathway suppression in pancreatic cancer</i>
16:54 – 17:19	Dr Silvia Formenti, Weill Cornell, US <i>Radiation techniques and technology: relevance to immuno-radiotherapy of pancreatic cancer</i>
17:20 – 17:35	Panel Discussion Including Dr Simon Barry, Astra Zeneca
17:35 – 17:45	Poster and Abstract Prize Presentation Dr Michael Gill, University of Cambridge
17:45 – 17:55	Meeting Close Dr Giulia Biffi, University of Cambridge
17:55 – till late	Drinks and hot buffet
